## Projects Profile:

### Project: HR Upload Documents in people soft

<b>Designation</b>	:	Software Engineer
<b>Client</b>	:	Wells Fargo
<b>Tool used</b>	:	<b>UiPath -2018.4.5</b>
<b>Roles</b>	:	<b>Bot Creation</b> - Design, Develop, Test, Deploy, Monitoring, scheduling and report generation

**Project Description:** This process is to upload the documents related to the candidates applying for a particular job against its job ID. This process has complex validation logic of the naming conventions that the documents should follow in order to upload them to the people's soft application. It also includes a report generation module which generates reports at regular intervals and at the specified periodic intervals too.

### Project: Clari User Termination

<b>Designation</b>	:	Software Engineer
<b>Client</b>	:	Palo Alto Networks
<b>Tool used</b>	:	<b>UiPath -2021.4.4</b>
<b>Roles</b>	:	<b>Bot Creation</b> - Requirements, Design, Develop, Test, UAT, Deploy, Monitoring, scheduling, Production Support and report generation

**Project Description:** This process is to revoke the user access from the Clari application based on the business condition. This automation includes multiple applications such as Clari, Anaplan, Salesforce and Gdrive. Summary reports having essential details will be sent to business users.

### Project: RMA Status Tracker Automation

<b>Designation</b>	:	Software Engineer
<b>Client</b>	:	Palo Alto Networks
<b>Tool used</b>	:	<b>UiPath -2021.4.4</b>
<b>Roles</b>	:	<b>Bot Creation</b> - Requirements, Design, Develop, Test, Deploy, Monitoring, scheduling, Production Support and report generation

**Project Description:** The scope of this Automation is to track the RMA status and if the status or location changed then the Bot should trigger the mail with details. The target applications are SAP and Salesforce. The Bot should trigger the mail if the Status or Location changed.

### Project : PROMAX Automation

<b>Designation</b>	:	Senior Analyst\Software Engineer
<b>Client</b>	:	CLOROX
<b>Tool used</b>	:	<b>UiPath -2020.10.2</b>
<b>Roles</b>	:	<b>Bot Creation</b> - Design, Develop, Test, Deploy, Monitoring, scheduling and report generation

**Project Description:** This process is to develop a Regression Test Suite for various Test Scenarios. The target application used is PROMAX which is a Windows Application. The process involves integration between PROMAX and SAP Application. Various Test Cases are developed and integrated in the RE Framework UIPATH and the flag is set to YES/NO respectively when the test case has to be executed. The Report Generation Module indicates status of Passed and Failed Test Cases

### **Academic Profile:**

- Bachelor of Engineering with Specialization in **Electronics and Communication Engineering** from Coimbatore Institute of Technology, Coimbatore from 2019 with **6.7 CGPA**
- Intermediate from K.G.M.S higher secondary school, Vettaiyampalayam, 2015 with **94%**
- SSC R.C high School, Valipalayam in 2013 with **90%**

### **Strengths:**

- Good at **Programming** and **logical thinking**.
- Quick learner, **passionate about new technologies**, curious to know new things
- Good problem-solver with **innovative mindset** and have good analytical skills
- **Positive attitude & Enthusiastic** in team work.
- Good team player, **believe in collaboration** and support my colleagues
- **Courageous to try and fail faster**
- Have the ability to work closely with business stakeholders
